

An aerial photograph of a modern backyard pool and patio. The pool is rectangular with clear blue water, surrounded by a light grey stone patio. To the left of the pool are two white lounge chairs and a white circular daybed. To the right is a seating area with wooden chairs and a fire pit. The patio is bordered by a low wall of grey stone and a bed of grey gravel. The surrounding landscape includes green grass and various plants.

Elevation

In its 9 manufacturing plants in Quebec and Ontario, Permacon manufactures increasingly innovative and trendy concrete products.

Engagement

Permacon is committed to offering high-quality products that exceed the expectations of its customers and partners.

Ecology

In its mission for a greener, more sustainable future, Permacon manufactures products locally, thereby reducing its carbon footprint. Our circularity strategy means that concrete excess from our manufacturing process is reused.

PERMACON
A CRH COMPANY

VERTEX Slab *New*

Elevate your design with our trapezoidal-shaped slabs for an exceptional outdoor space. P 46

BROOKLYN Paver *New*

Textured pavers with rich, silky colours, evoking the natural stone of the past. P 50

CAPIO Paver *New*

Incorporate the Capio paver into your designs, its small format is ideal for creating curves. P 51

LENO Capping *New*

Our popular elongated capping now available with a straight finish or our Lafitt texture. P 79

MELVILLE PLUS 90 Capping *New*

Now available in two heights (60 and 90 mm), this smooth capping adds a modern touch to your design. P 81

NOVO Curb *New*

This innovative mega-size curb features a visual illusion effect and smooth texture, perfect for contemporary design. P 93

ARTEX® Panel System: Patent pending, Canada, United States and Europe

2024 Innovations

In harmony with the environment

Cassara Verde Paver - P 53

Mega Melville Slab - P 37

Virage Paver - P 62

If you want to support a more sustainable approach to landscaping, consider incorporating our permeable pavers into your ecological creations.

ECOLOGICAL
Eco-friendly products for sustainable design.

LOCAL PRODUCTION
Commitment to the community and the local economy.

ZERO EXCESS
Zero excess approach to reduce our impact on the environment.

PERMEABLE
Permeable pavers to protect our water resources.

Our range of permeable pavers filter runoff water and combat heat islands in urban environments.

Inspired **by nature**

Each landscape is unique and presents challenges for achieving a design that is both respectful of nature and sustainable. The different finishes, textures and colours of Permacon's products extend interior life to the outdoors. The backyard is inspired by the architecture of the residence and maintains the natural beauty of the site.

Mega Melville Slab Range Scandina Grey - P 37

Mega Melville Slab Range Scandina Grey - P 37 | **Mega Melville Plus Step** Range Scandina Grey - P 87

Transform your large outdoor spaces into a haven of tranquility with our refined-style Mega Melville slabs and create a warm and welcoming space around your fireplace for unforgettable moments with your loved ones.

Large Spaces

Pair our landscape and masonry products to create your outdoor dream space. To define living spaces in large areas, match the Mondrian stone in Range Newport Grey from our masonry product range to the slabs and pavers offered in the same colour to create a refined design in harmony with nature.

Combine our pavers, slabs and cappings to create unique areas that reflect your style and personality.

Landscaping Tailored to your Tastes

Choose products from our Melville collection to create a cottage atmosphere in your backyard. Transform your outdoor space into a cozy outdoor dining room where every meal becomes an open-air gourmet experience.

Mega Melville Paver Range Scandina Grey and Rockland Black - P 55

Laguna Capping Alpine Grey - P 78

Your backyard with Mega Melville slabs in Range Scandina Grey becomes welcoming and inviting, and the driveway, with matching pavers in the same colour, extends this harmony.

Melville Tandem Wall Range Shaded Grey - P 69

Melville 80 Paver Range Chamboard Grey and Range Shaded Grey - P 56

Textures and Finishes

smooth 

textured 

Explore our smooth and textured surface collections. One represents refinement for modern spaces and the other evokes rusticity for natural and organic spaces.

Whatever the style you choose, these collections combine delicacy and natural beauty, offering an outstanding landscaping experience.

Imagine and bring to life your dream outdoor space. Our landscape products, with their smooth or textured surfaces and numerous finishes and colours, offer endless possibilities.

Techniseal® Polymeric Sands

SMARTSAND® with NextGel™ TECHNOLOGY

- Optimizing interlocking paver jointing
 - Ideal for 1/16 in. (1.6 mm) to 1 in. (2.5 cm) wide joints
 - Suitable for pedestrian and low-traffic areas (driveways, sidewalks and terraces)
- SmartSand is offered by Permacon in **Tan, Urban Grey or Granite**

HP NextGel

- Optimizing jointing of concrete pavers and slabs, and porcelain tiles (only if mechanical compaction is possible)
 - Appropriate for false joints
 - Ideal for 1/16 in. (1.6 mm) to 2 in. (5 cm) wide joints
 - Suitable for high-humidity environments, heavy-sloped and heavy traffic areas
- HP NextGel is offered by Permacon in **Tan, Urban Grey, Ivory, Black or Granite**

RG+ NextGel

- Economic solution
 - Ideal for 1/16 in. (1.6 mm) to 1/2 in. (12.7 mm) wide joints
 - Suitable for everyday projects
- RG+ NextGel is offered by Permacon in **Tan or Dark Granite**

NOCO NO COMPACTION

- Optimizing jointing of concrete pavers, highly textured surfaces, large slabs and porcelain tiles
 - Appropriate for false joints
 - Ideal for 1/4 in. (6 mm) to 2 in. (5 cm) wide joints with up to 4 in. (10 cm) wide intersections
 - Perfect alternative to mortar, stone dust and polymeric stone dust
- Noco is offered by Permacon in **Desert Tan or Iron Grey**

50-Year Warranty

Landscape Products

50-Year Warranty | **Landscape Products**

Permacon's 50-year warranty applies to landscape and masonry products including Suretouch intended for residential use¹. This warranty statement affirms that products manufactured by Permacon meet the requirements of CSA (Canadian Standard Association) and ASTM (American Society for Testing and Materials) standards.

For details regarding commercial applications, please refer to our institutional, commercial and industrial warranty.

Permacon guarantees that, as of the date of delivery, its concrete products are free from manufacturing defects. Provided that the conditions set forth below are met, Permacon guarantees the structural integrity of the concrete in its landscaping and masonry products for a period of 50 years from the date of the product's purchase. The warranty applies to normal, non-abusive use of the product. To preserve the original appearance of your products, we recommend that you consult our **Landscape Maintenance Guide** available on our website.

IN ALL CASES DETAILED BELOW, THE WARRANTY IS LIMITED TO THE PRODUCTS' MARKET VALUE.

How do I make a claim?

 permacon.ca/en/warranty/

Proof of purchase is required to proceed with a claim request. No claims will be accepted without proof of purchase.²

All claims must be reported within 15 days of the discovery of a product's defect. To validate a claim, a Permacon representative will arrive to inspect the defective products in order to confirm whether the claim is eligible. Therefore, it is essential to provide Permacon with the necessary access to inspect and take photos of the affected products.

This warranty is the only one that is presently offered. Because Permacon continually improves and modifies its products, it may alter and discontinue products at any time, and therefore may replace warranty-covered products with products of similar quality or offer monetary compensation if the products under warranty have been discontinued or are no longer on the market while the warranty is active.

In the event that a product is found to be non-compliant by Permacon or an authorized representative of the company, and in order to proceed with compensation, Permacon will take into account the number of months during which the

landscape or masonry products were in the possession of the owner or their contractor, up to the date of the claim, and will prorate the amount of the payment or replacement to be made accordingly.

For example, if the purchaser makes a warranty claim in the last month of the 10th year of the warranty (i.e., the 120th month), the manufacturer, at its sole discretion, shall either:

- Provide a replacement for the product in question if still available (only the defective product will be replaced);
- Return 480/600 of the price paid for the products to the owner. No labour, transportation, or other compensation will be covered by Permacon.

Transferability

The warranty is transferable. Proof of warranty registration will still be required in the event of a claim. The prorated period will be based on the 50-year warranty period remaining as an assignee, if the purchaser transfers the warranty to a subsequent owner, as described above.

Exclusions

A landscape or masonry product installed on an area of more than **100 square feet** confirms the acceptance of the product received on the job site and that no claim can be made to Permacon regarding the colour, size, or texture of the product.

This warranty excludes all products not supplied by Permacon, as well as any defects, failures, or damages that may result from the actions listed below:

- Contact with chemicals or cleaning products;
- Damage caused by pressure washers;
- Improper installation or other construction activities that do not comply with the installation standards established by ICPI, NCMA or IMQ, the National Building Code or the installation methods and tips recommended by Permacon. The installation guides provided by Permacon represent certain installation situations and are not exhaustive. It is therefore strongly recommended that you consult a qualified professional to ensure the proper installation of Permacon products on a specific job site;
- Defective design or construction resulting in sagging, shifting, or failure;
- Breakage due to shock, impact, or excessive load during handling, use, or transportation;
- Natural disaster or other uncontrollable event;
- Breakage and damage to products caused by soil movement or building movement as well as misuse of construction, compaction, or snow removal equipment. The warranty does not cover surface deterioration caused by the misuse of sodium chloride (NaCl) to de-ice pavers, slabs, or steps;
- The use of sodium chloride (NaCl) on the following products:
 - Step Valentia;
 - Valentia Block;
- Be.OnStone and Mirage products sold by Permacon.

Installation

When installing masonry products, all work must be cleaned to remove any residues and contaminants left on the stone or brick. Permacon accepts no responsibility for stains and colour changes caused by installation residue or the consequences of cleaning these residues.

Colour

The presence of natural ingredients used in the manufacturing process varies from one product to another. Therefore, the product received on the job site will not be completely identical to the products displayed in our commercial presentations (catalogs, samples, displays). Any difference in colour will not be covered by the guarantee.

Photos of our products in landscape and masonry brochures, as well as in displays such as masonry panels and landscape racks at our distributors, are not an exact representation of the products that will be delivered to the job site. Permacon offers a variety of products with different colours to reproduce the appearance of natural stone. It is therefore strongly recommended that you view several products directly from your authorized Permacon distributor to see all available colours.

It is the purchaser's responsibility to approve the products (and their colour) delivered to the job site prior to installation to confirm satisfaction. It is also recommended to mix products from different pallets received on the job site. Since variations in colour shades are a natural phenomenon, Permacon does not guarantee colour uniformity between different pallets on the same job site. Product installation constitutes acceptance.

Polymeric film

A whitish polymeric film can be found on the surface of Permacon's products. This is the result of an inadequate use of polymeric sand. Improper cleaning of slabs and pavers prior to the application of water on the product surface can cause this whitish polymeric film. This film does not affect the structural integrity of the product. Permacon cannot be held responsible for this phenomenon, which is not covered by the warranty.

Efflorescence

White traces on the surface of the product are caused by a natural phenomenon called efflorescence. More visible on darker products, efflorescence affects neither the intrinsic technical qualities nor the structural integrity of Permacon's products. The possible appearance of efflorescence cannot be the subject of any guarantee. In most cases, efflorescence disappears by itself over time.

Our Preventive Maintenance Guide for Concrete Landscaping Products is available on our website permacon.ca

¹ The following locations are defined as residential: family dwelling of five units or less, single family homes, garden suites, or townhouses.

² The following documents are considered valid proof of purchase: invoices directly from an authorized Permacon distributor, or invoice from a landscape contractor, general contractor, mason, or home builder.

Since 1952, all Permacon products have been made with passion and pride in Canada.
