A Canvas For Connection

In today's fast-paced world, where screens and digital distractions often dominate our lives, there's a yearning for genuine connections and a true sense of community. In days gone by, the term "neighbor" held a deeper meaning than merely sharing a street. It was a time when our backyards were not just plots of land; they were spaces where we gathered, connected, and created memories. Those were the days when the backyard served as the beating heart of our social lives and our communities.

Here at Techo-Bloc, we're in the business of crafting experiences. Our mission is to foster that sense of community through outdoor spaces that serve as a catalyst for connection. We empower statement-making designs that invite neighbors to stop and spark conversation, backyards that allow you to invite and host or give your children a space to explore and play. With an array of colors, textures, and patterns, our products open boundless opportunities to transform your outdoor space into one that is uniquely yours while nurturing connections and cultivating relationships.

So, as you explore the creative potential of your outdoor space, remember that it's more than just a yard—it's a canvas for expressing your unique style and fostering connection. Let's rediscover the sheer joy of sharing precious moments with friends, family, and neighbors. Together, let's make the backyard once again the epicenter of our communities.

We live to create designs. Memories. Connection.

Top Trends

Coast-to-Coast Artscapes

Nestled along a pristine beachfront, this modern backyard exemplifies contemporary design. The interplay of beige and grey Industria Triangle pavers blends modern aesthetics with coastal tranquility. This intricate pattern adds artistry to the space, complementing the natural beauty of the beachfront. A custom Graphix fire pit serves as the heart of the space, providing a cozy ambiance and extending usability into cooler evenings.

Checkerboard Revival

📍 LINCROFT, NJ, USA

In the realm of outdoor design, a timeless pattern is experiencing a modern resurgence – the checkerboard design. Textured Everest slabs, remarkably resembling natural stone, form the foundation of this trend. The tactile and earthy charm they bring create a compelling contrast to the lush grass inserts. The result is a harmonious fusion of texture and nature, offering a sophisticated balance between hardscape and softscape.

📍 STATEN ISLAND, NY, USA

↑ Para slab in Onyx Black and Greyed Nickel

Multi-function Compact Spaces

📍 KIPLING, ON, CA

Creating a lasting impression in a compact backyard can be a challenge, but the answer lies in the remarkable impact of large Para slabs showcased in 3 different sizes. By artfully contrasting bold black and soft light grey slabs, and arranging an area in a herringbone pattern, this design carves out dedicated dining and relaxation areas. The result is a blend of function and style, highlighting how even the coziest of backyards can become a canvas for grand design statements.

this product

Quiet Luxury

📍 GREATER MONTREAL, QC, CA

In the world of outdoor design, a delicate balance of scale and color can transform a backyard. The small and linear merlot Westmount paver in herringbone pattern takes center stage and adds a touch of class and sophistication. The larger-than-life beige Industria 900 pavers set the foundation for an inviting canvas, creating a striking contrast of scale and color. The result is a harmonious blend that defies trends, evoking an enduring, timeless charm.

Long Lasting Natural Finishes

📍 FISHERS, IN, USA

Low-maintenance materials that imitate natural finishes are making waves. Textured Travertina slabs artfully mimic rustic travertine amidst faux grass, creating timeless charm. The Borealis walls showcase the warmth and character of natural wood without the need for regular upkeep, while highlighting custom features – a bespoke kitchen, fire pit, and large-scale planters. A spacious, low-maintenance oasis proves that grand designs can offer both beauty and convenience.

Green Choices for Grand Design

Greentecture unites sustainability with aesthetics, revealing the beauty in responsible living. Permeable driveway pavers reduce runoff and pollutants, while adding a pop of greenery. Edible gardens grace the eye-catching staircase, presenting a grand and eco-conscious entrance. Patio slabs, adorned with textured floral patterns and bordered by lush grass, exemplify the fusion of beauty and green choices.

Artful Outdoor Weaving

📍 GREATER MONTREAL, QC, CA

This backyard boasts two striking mosaics. Opting for a spectacular woven effect created by contrasting smaller rough-hewn Valet pavers amongst large-scale smooth Blu Grande slabs. This rhythmic interplay not only enhances the visual appeal but also adds tactile dimension to the backyard. The second showcases a wood-like herringbone pattern and features a custom fire element adding warmth to the outdoor space.

↑ Blu Grande slab in Beige Cream, Valet paver in Chestnut Brown, Travertina Raw paver in Ivory and Raffinato step in Beige Cream

↓ Borealis slab in Hazelnut Brandy and Smoked Pine and Borealis wall in Smoked Pine

Bold Contrast with Colors and Geometrics

📍 NEW LENOX, IL, USA

This backyard's design focuses on striking contrasts. A classic checkerboard pattern features two shades of grey with Onyx Black in Industria slab, while an adjacent mosaic takes a modern twist with random pops of contrasting Hexa slabs. These bold design choices add geometric flair and create an architecturally engaging outdoor space.

Linear Line-up

Modern outdoor design focuses on clean lines and the use of cutting-edge materials. Contrasting stripes emerge through the artful combination of Diamond pavers or large-scale Sleek pavers with carefully integrated sections of lush grass, creating striking visuals. Modern gazebo structures, seating, and fire feature set on a strategically positioned Hexa and Para patio punctuate a space with commitment to contemporary aesthetics.

Maximalist Architectural Statements

📍 UPPER SADDLE RIVER, NJ, USA

Maximalism takes center stage in outdoor design with the strategic use of small linear Westmount pavers to create contrasting lines. When thoughtfully arranged, they become powerful tools for defining form and direction. In the driveway, they craft a commanding entry, while when applied to a poolside and sunken firepit they lead the way for guests and connect spaces.

Outdoor Illumination

Elevate your landscape design with strategic outdoor lighting and fire features. Uplight pillars crowned with flames, accentuate lush greenery, or illuminate pathways to outdoor seating. By thoughtfully integrating these elements, the combination creates an inviting and upscale atmosphere, transforming your outdoor living space.

Discover this project

European Aesthetics

📍 STATEN ISLAND, NY, USA

Pay homage to classic European-inspired design elements in your backyard. From cobblestone-inspired mosaics to the bold, luxurious lines of European-style furniture, every detail is meticulously curated to reflect a sense of timeless elegance. These elements harmonize beautifully with arched doorways, creating a coherent and sophisticated outdoor space.

Benefits of Permeable Pavement

With climate change increasing the frequency of rain and causing additional stress on our environment, we are motivated to find sustainable ways to update outdoor spaces. As water runs off urban surfaces, sediment, road salts, metals, oils, pesticides and other harmful pollutants are picked up and are being fed into our rivers and lakes. Designed to let water pass through the joints and filter it back into the ground, permeable options are paving the way for an eco-conscious solution.

CONSERVE GROUNDWATER

Collect and store rainwater to later be used in irrigation systems for nourishing plants, lawns and gardens.

LIMIT FLOODING

Direct stormwater runoff back into the ground instead of sewage systems.

TEMPERATURE CONTROL

Large structures in urban areas absorb and re-emit the sun's heat, creating what are called heat islands. Permeable pavers help counteract this effect, reducing the overall temperature.

LONG-TERM SAVINGS

Some municipalities offer tax credits and subsidies for the implementation of a rainwater management system, permeable pavement included.

MAXIMIZE SQUARE FOOTAGE OF PAVED SURFACE

Certain municipalities require that a percentage of your front yard contains horticultural elements. Permeable pavement sometimes qualifies.

IMPROVED WATER QUALITY

Filter out contaminants such as heavy metals and harmful pollutants.

REDUCE PUDDLES AND ICE BUILD-UP

Permeable pavers promote natural drainage, reducing water and ice build-up on paved surfaces; less de-icing salts needed!

EYE-CATCHING AND ECO-FRIENDLY

Personalize your outdoor design right down to the joint filling to match the aesthetic of your home!

Personalize your joint filling!

Options range from clean stone to river rock and even turf.

River Rock

Grass or Turf

Pavers

Style in overdrive. Our inspiring collection of interlocking paving stones makes it a snap to get creative: the vast selection of shapes, sizes, textures and colors is crafted to pair perfectly with our slab collections as well as your home. But these stones are built on more than just good looks – they're colorfast, salt-resistant and some permeable, perfect for going the distance on driveways, walkways and beyond.

Outdoor Features

A spark of inspiration. When you're entertaining outdoors, create unique spaces that will make your guests want to linger longer. Fire pits, fireplaces, pizza ovens and grill islands act as natural gathering places and become instant conversation starters. Whether you're seeking clean and contemporary lines or rustic earthy inspiration, outdoor entertainment never looked so good.

Walls

Take landscape design to new heights. Our tasteful walls are designed to do more than build up the visual interest of your yard, garden and patio (though they're great at that, too). When creativity comes calling, play with different textures and finishes to create custom features like bars, benches, kitchens and firepits. And to keep it all looking seamlessly coordinated, our wall colors are perfectly matched with our other product collections.

Caps

Capping off the great outdoors. When upgrading your outdoor living areas, top them off right with the perfect finishing touches. Our color-coordinated caps and copings add the crowning touch to pool edges, stairs, walls, firepits and more — and best of all, they're as protective as they are attractive.

Steps

Step up your curb appeal. Elevating your landscape design is simple when you follow the right steps. Our stone steps offer a beautiful way to offset spaces, creating natural paths and visual interest in your yards and gardens. Or, boost your home's curb appeal by welcoming guests with a showstopping entrance right up front. Wherever they lead, our maintenance-free overlay systems are exclusively designed to step in and give new life to timeworn poured concrete.

For an authentic look, each color option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining & textures from one stone to another. Final color selection should be made with your contractor from product samples or at your local dealer from stocked product. This color chart serves as a guide for color selection across product lines.

X Available ④ Permeable • Available only in USA
E Available only in Eastern USA C Available only in Canada

Eastern USA encompasses these states: CT, DE, MA, MD, ME, NC, NH, NJ, NY, Eastern PA, RI, SC, VA & VT

Warranty

A STANDARD OF CARE

The care of high quality concrete products is similar to the care of any product left in the environment 365 days and nights per year. Very mild cleaning using detergents, water and product specific chemicals is necessary and similar to cleaning patio furniture, a vehicle's chrome, plastic, or paint, etc. in order to enhance their presence and charm. Protectant of all types (high, middle, and low sheen, pigmented/tinted, penetrating or film forming) are available for additional protection from acid rain, stains and nature's worst. To get the most from your investments take care of them and they'll take care of you.

For any questions on industry-specific cleaners and protectant, see your local hardscape dealer/distributor, contact your contractor, contact us or search online.

It is contrary to Techo-Bloc's SOP (Standard Operating Procedures) to be involved in the care of a mature pavement or retaining structure. Care as mentioned above is the responsibility of the owner for any and all outdoor products.

CMHA disclaimer: "In areas where segmental retaining walls will be repeatedly exposed to snow (such as from snow plowing operations) consider periodically applying sealants or water repelling chemicals (silane or siloxane compounds) to the wall surface."

COLOR

Due to the inherent nature of printed literature and current digital media, Techo-Bloc cannot guarantee specific color matching to printed representations of its color swatches.

Each color option is composed of a variety of darker and lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Therefore, colors samples shown are approximate representations of our standard colors and actual product colors may vary.

Final color selection should be made at your local dealer from stocked product. Techo-Bloc always recommends immediately verifying the product and color upon reception. If there are any discrepancies, contact your local dealer before continuing your project. Installation of the product constitutes your acceptance of the product as is.

EFFLORESCENCE

This warranty does not apply to efflorescence. Efflorescence is a natural occurring process in all concrete products which sometimes appears in the form of a white powdery film on the pavement surface. Efflorescence is more perceivable in darker colors such as Onyx Black and Chocolate Brown as there is a higher level of

contrast than with other blended colors. It does not, in any way, compromise the functionality or the structural integrity of the product. Although efflorescence cannot be prevented, it will wash off over time or can be cleaned with efflorescence cleaner. Techo-Bloc accepts no responsibility or liability for this condition.

POLYMERIC HAZE

Polymeric haze from the use of polymeric joint sand may appear on your concrete products if the sand was not removed from the surface of the paver properly. This does not, in any way, affect the integrity of the product or your installation. The hazing will weather away naturally with time and rain. It can be removed with a specialized cleaner; you are advised to contact your contractor or the polymeric sand company used for instructions and recommendations. Techo-Bloc accepts no responsibility or liability for this occurrence.

CONSTRUCTION RESIDUE

A by-product of cutting with a saw is residue-filled water or concrete dust. Residue filled water or re-hydrated dust can cling to the surface and leave a concrete stain. It is recommended to wash and remove the water or concrete dust from the surface of the pavers before it dries. Construction residue can also happen through soil disturbance or environmental elements. These contaminants should be removed immediately but do not affect the integrity of the product or your installation. Techo-Bloc accepts no responsibility or liability for these occurrences.

PROPER COLOR DISTRIBUTION AND LAYING TECHNIQUES

Proper installation enhances the overall color of pavement. Units should be randomly picked from at least two pallets when installing. This creates an attractive and subtle blending of color.

COMPACTOR AND SNOW REMOVAL EQUIPMENT

Pavers with an embossed surface (high and low points) are more susceptible to scuff marks from vibratory plate compactors used in most concrete paver installations. Techo-Bloc recommends the use of a urethane mat between the plate and the paver surface during compacting. Contact your equipment supplier for more information about accessories for this purpose. Also, snow removal equipment should have the proper spacing, bumpers, and rubber blade guards to protect the surface of the pavers. Techo-Bloc is not responsible for damage caused by the misuse of compaction or snow removal equipment, which may leave scuff marks, or burns on pavers.

NOTE:

For industry information about efflorescence, polymeric haze or information pertaining to installation specifications, please visit www.icpi.org or www.ncma.org.

LIMITED WARRANTY

The warranty applies to concrete landscaping and masonry products (herein referred to as “products”) intended for residential use and manufactured by the Techo-Bloc group.

All Techo-Bloc products comply with applicable standards established by the American Society for Testing and Materials (ASTM) and the Canadian Standards Association (CSA).

Techo-Bloc offers a transferable life-time warranty on its products, commencing on the date of delivery. The warranty covers the structural integrity of the products and any abnormal deterioration of its surfaces that may be caused by the use of rock salt (sodium chloride [NaCl]) for de-icing pavers, slabs or steps, with the exception of Wet Cast collection products, unless otherwise stated.

THE FOLLOWING CONDITIONS OR EVENTS ARE NOT COVERED BY THE WARRANTY:

1. Claims regarding the color, size, or texture of a product already installed. An installed product confirms the acceptance of the product received.
2. Use of rock salt and transferability of warranty on Wet Cast collection products unless otherwise stated.
3. Splitting, chipping or other breakage caused by impact, abrasion or overloading.
4. Damage or loss caused by the movement or settling of the underlying structure or base components upon which the products are set.
5. Damage or loss caused by design or installation not in compliance with local codes, industry standards or the guidelines provided by the Concrete Masonry and Hardscape Association (CMHA) or Techo-Bloc.
6. Damage or loss caused by natural disaster, including but not limited to, earthquakes, floods or other similar events.
7. Acts of negligence or misuse by the owner, installer or any third party.
8. Color matching to printed representations.
9. Efflorescence, polymeric haze or construction-born residue. (See the important information section for terminologies)
10. Damage or loss caused by the operation of compaction or snow removal equipment.
11. Normal wear and tear and normal behavior, such as variation in colors or shades.

In the event of product failure within the scope of this warranty, Techo-Bloc will replace the affected units only, following a site inspection and assessment of the products by Techo-Bloc or its representatives. Techo-Bloc’s responsibility is limited to the cost of the product only and not to the costs related to the installation or replacement of said products. Techo-Bloc will honor this warranty only with a proof of purchase, such as an invoice or delivery slip.
